

# Zefon Bio-Pump® Plus

## Over 40% smaller & lighter than the original Bio-Pump!

The **Zefon** Bio-Pump® Plus is the smallest, lightest and easiest to use portable, battery-powered IAQ pumps designed for exclusive use with Air-O-Cell® and Via-Cell® cassettes at a flow rate of 15 Liters Per Minute (LPM).

The **Zefon** Bio-Pump® Plus is not only the most advanced, user friendly pump designed for IAQ, but each ZBP-200 kit is a great value. Each pump includes extra items such as 10 FREE Air-O-Cell® cassettes, a carrying case and fast battery charging as standard items. This amounts to over \$100 that other pump manufacturers charge for.

Each Bio-Pump® PLUS Kit comes with an Air-O-Cell® flow indicator, a second Via-Cell®/ Air-O-Cell® CSI flow indicator, AC battery charger, Manual, Hard Plastic carrying case, Zefon Air Sampling CD, and 10 FREE Air-O-Cell® cassettes.

ZBP-200

### Bio-Pump Plus Features

- Battery Powered
- Quiet Operation
- Real Time Display Showing Actual Run Time
- Programmable Sample Time (allows unattended operation)
- "Sample Complete" Audible & Visual Indicators
- 'Quick Sample' Operation
