

BH-90e

Portable gas Detector with Gooseneck

FEATURES

- Advanced MPU technology
- Low power consumption
- Sensitive and able to return to zero
- Full-function self-test and self-repair
- Battery voltage low alarm
- Audio, Visual LCD Indicators
- Alarm point is adjustable
- Zero automatic adjust function, quick and convenient
- Intrinsically safe apparatus
- Rechargeable
- Temperature and humidity indicator
- Colorful LCD

SPECIFICATIONS

Range:

PPM: 0-10000PPM

Alarm Point:

PPM: 200PPM/500PPM

Method of Detection: Diffusion

Sensor:

Combustible Gases-Catalytic

Display: LCD

Temperature: -20℃~60℃

Humidity: 5 to 95% RH, non-condensing

Power: 3.7VDC 1500mA rechargeable lithium battery

Operating time: Approx.8 hours

Charge Time: Approximately 6 hours

Dimensions: 210mm*66mm*30mm

Sound: 85 dB at 1m

Weight: 300g

Ingress Protection: IP65
